

Krishna Devadkar

krishnadevadkar@gmail.com | +91-8208863439 | GitHub | LinkedIn

Summary

Fresher with hands-on experience in frontend and web development. Passionate about building real-world applications, learning new technologies, and delivering clean, user-focused solutions. Also fundamentals and cloud-based development.

Technical Skills

- **Languages:** Python, JavaScript
- **Web Technologies:** HTML5, CSS3, Responsive Design
- **Developer Tools:** Git, GitHub, VS Code, Antigravity
- **Databases:** SQL, MongoDB compass
- **Frameworks:** Flask

Projects

Smart Kisan: Agricultural Platform

- Built a digital platform that delivers data-driven agricultural guidance to farmers and rural youth.
- Integrated real-time data processing and a user-friendly interface to improve rural accessibility.

Health OPD: AI-Powered Virtual Assistant

- Developed a virtual assistant using NLP for real-time patient interaction and query resolution.
- Designed conversational flows to handle dynamic user input and provide accurate responses.

Education

Bachelor of Technology (Computer Science)

Sanjay Ghodawat Institute

Certifications

- Python Programming - Skill India
- Generative AI - Microsoft
- JavaScript - Cisco Networking Academy
- Prompt Engineering - IBM

Experience

Python AI & ML

Internship

- Gained practical exposure to Python-based machine learning models and data preprocessing.
- Implemented and analyzed various model evaluation techniques.

Data Analytics

Internship

- Gained practical experience in data analytics using Python, SQL, including data cleaning.
- datasets were analyzed, interactive dashboards were created, and analytical techniques were applied.

Professional Skills

- Problem Solving, Team Collaboration, Time Management, Quick Learner

Hackathons

- CodeRush 2.0 - Yeshwantrao Chavan College Of Engineering, Nagpur
- Inceptia Hackathon - Pimpri Chinchwad College of Engineering, Pune
- Hacknovate 2026 - Karmaveer Bhaurao Patil College of Engineering, Satara
